

Excellence in Universal Design  
and Accessibility

# 2018/2019 Nomination Package

Presented by the City of Winnipeg's Access Advisory Committee

## Overview

The Access Awards raise awareness regarding the importance of accessibility and universal design in the City of Winnipeg. They recognize exceptional projects that highlight universal design through a juried process.

This year the Access Awards committee decided to expand the intake process for the awards to a **two year nomination period** with the deadline for nominations to be **June 28, 2019**

Universal design makes life more equitable, safe, comfortable and affordable for everyone, including people with disabilities.

These awards honour projects that incorporate accessibility elements to ensure physical, sensory, and intuitive way-finding access. Moreover, they provide a way to continue the discussion about the chances for full participation in our community, regardless of ability.

The Access Awards program adds to a genuine excitement to build exceptional and accessible facilities which meet and exceed the existing building codes. Just building to code is a thing of the past. The whole community is beginning to expect accessible and inclusive design as part of the norm and challenges the whole design community to embrace this in a seamless and non-obvious manner.

The Winnipeg model of Universal Design and the establishment of an Accessibility Award for exceptional and accessible architecture is meritorious. We award good work that exhibits innovation and reflects best practices.

## Overview (continued)

The Access Awards will be awarded on the project's individual merit and allow for specific attention to the individual universal design elements that are exemplary in scope and achievement.

The 2018-19 Access Awards Presentations will be held in the fall of 2019, and will be an excellent opportunity to network with other architects, designers, project owners, students, the whole design community and other professionals in the field.

**Please read the informational nomination package attached and submit by the Friday, June 28, 2019 Deadline.**

## Eligible Project

Projects may include features of private homes, architectural designs, interior designs, landscapes, urban designs or any other built environment.

- May be designated private or public
- May be commercial, residential, recreational or institutional
- May be newly constructed or renovated, but the project must be completed
- Must be located in Winnipeg within defined city limits
- Must be a built environment

## Overall Criteria

Nominations will be juried by a sub-committee of the Access Advisory Committee. Award winning project(s) will:

- Exceed Manitoba Building Code standards for accessibility
- Place people at the heart of the design process
- Acknowledge diversity, differences
- Foster Inclusivity and accessibility for all and will be designed to accommodate changing needs
- Provide an enjoyable experience
- Undertake appropriate consultation
- Integrate accessibility and Universal Design features gracefully and seamlessly within the overall project design
- Improve the quality of people's lives in Winnipeg

## **Awards winning projects can include all or any of the following categories:**

- **New Construction**

- **Renovations**

- **Physical Access**

Physical access awards will be given to constructed projects that demonstrate excellence in addressing the needs of people with a broad range of mobility and physical impairments, paying attention to a variety of details including:

- Parking
- Approach & exterior entrances
- Reception areas
- Washrooms
- Ramps
- Elevators/lifts
- Egress

- **Sensory Access**

Sensory access awards will be given to constructed projects that demonstrate excellence in serving the needs of people with sensory impairments. Specific features in the sensory category might include:

- Safe and Intuitive Wayfinding
- Audible and Visual Alarms
- Lighting and Glare Control
- Creative use of Contrast
- Colour
- Acoustics
- Textures

## Categories (continued)

- **Small Budget Projects**

This award recognizes humble but excellent work, with the added criteria of extremely limited budgets and/or modest in scope

- **Community Recognition**

This award may be presented, at the discretion of the awards jury, to an individual, group, or organization in recognition of a community member's or organization's grass-roots efforts to include accessible design within a built space.

- **Leadership Award for the Advancement of Accessible Environmental Design**

This award recognizes individuals or organizations that have shown leadership and have advanced the art of accessible environmental design

## How to nominate a project

- Anyone can nominate a project
- Only one project is allowed per nomination form
- No limit to the number of nominations submitted

## Nominee Submission

- Must submit completed nomination form  
(Nomination forms can be downloaded at: [www.aacwinnipeg.mb.ca](http://www.aacwinnipeg.mb.ca))

By mail or in person to:

[Access Advisory Committee](#)

[Council Building, Lower Level, 510 Main Street, Winnipeg, Manitoba, R3B 1B9](#)

Electronically to: [csobkowicz@winnipeg.ca](mailto:csobkowicz@winnipeg.ca)

- Must submit digital images of the nominated property and other supporting documents such as drawings, perspectives, digital images or files
- Must consent to a site visit and use of photographs for media and/or public relations

## Selection Process

- Nominee finalists will be contacted to confirm their participation in the competition
- Selection committee will review all submissions
- Site visits will be conducted by the awards jury for those short-listed
- Properties will be judged as built

## Recognition

- Awards recipients will be announced at the annual celebratory event, hosted by the City of Winnipeg Access Advisory Committee, and formally presented to the Award Winners.
- Awards are presented to the property nominated and the designer. Recipients will also be recognized on the City of Winnipeg and AAC websites.
- A press release, with photographs of the recipients, will be distributed to local media, social media platforms and appropriate professional organizations and stakeholder groups.

## Principles of Universal Design

1. **Equitable Use** - The design is useful and marketable to people with diverse abilities.
2. **Flexibility in Use** - The design accommodates a wide range of individual preferences and abilities.
3. **Simple and Intuitive Use** - The design is easy to understand, regardless of the user's experience, knowledge, language skills, or current concentration level.
4. **Perceptible Information** - The design communicates necessary information effectively to the user, regardless of ambient conditions or the user's sensory abilities.
5. **Tolerance for Error** - The design minimizes hazards and the adverse consequences of accidental or unintended actions.
6. **Low Physical Effort** - The design can be used efficiently and comfortably with a minimum of fatigue.
7. **Size and Space for Approach and Use** - Appropriate size and space are provided for approach, reach, manipulation and use, regardless of user's body position, size, posture or mobility.
